

Meet the Teacher: Ms. Brooke Pelachyk

Greetings! My name is Ms. Brooke Pelachyk, and I will be your child's middle school special education teacher for the 2022-2023 school year. This will be my 6th year of teaching, and my 5th year at Hearst. I have had a great experience as a part of the Hearst community and am excited to continue this journey as a Hearst Warrior.

MICHIGAN STATE
UNIVERSITY

MY EDUCATION

In May of 2016, I graduated with a Bachelor of Arts in Special Education: Learning Disabilities from Michigan State University. In 2021 I earned a Master's degree in Special Education from Michigan State University as well. Since having my own classroom, I have taught in both middle school special education settings and primary special education settings and have loved working with the many different students I have encountered.

COMMUNICATION

I find teacher-parent and parent-teacher communication very important, especially within the special education classroom. Please don't hesitate to contact me with any questions or concerns you may have. This school year I will use communication apps and email as the primary form of communication. I will try to respond to messages and emails during any time I have within the school day. If you happen to contact me after 3:45pm I will respond the next day. I will ensure that I always get back to you within 24 hours.

MS. P'S NOTES

Please keep updated with any school and class emails/posts you receive during the school year. It is important that parents are always aware of what is going on in their children's school life. You are a huge part of our students' successes! I look forward to working with you all throughout this school year.
